Speak Distinctly

When using the telephone speak distinctly, with lips not more than one inch from the mouthpiece. It is unnecessary to shout.

ILLINOIS BELL TELEPHONE COMPANY

Oh--wun--fo-wer--siks

siks--too--oh--sev-ven

fi-yiv--ate--ni-yen--oh

fo-wer--th-r-ee--ate--wun

TRY pronouncing the odd little syllables printed above. You will find they sound (and unmistakably) like well-known numbers you use every day.

Now, these words didn't just happen! It was found that several numbers sound much alike over the telephone so careful speech tests were made to find the simplest and surest sounds for the numerals 0 and 9.

Here they are in order: oh (0) . . . wun (1) . . . too (2) . . . th-r-ee (3) . . . fo-wer (4) . . . fi-yiv (5) . . . siks (6) . . . sev-ven (7) . . . ate (8) . . . ni-yen (9).

Illinois Bell telephone operators are trained to speak this way because this is the best way to identify numbers with the least chance of error.

Your telephone company aims to give you the finest possible service at the lowest possible cost.

ILLINOIS BELL TELEPHONE COMPANY

Give The Person You Call Time to Answer

Time passes slowly when you are waiting at the telephone for some one to answer your call. A few seconds may seem like a couple of minutes.

When you make a telephone call give the person you are calling plenty of time to answer. He may be far from the telephone or may not have heard it ring the first time. He may have been delayed in answering.

By waiting a short time you may save yourself the trouble of calling again.

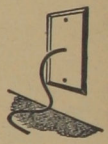
ILLINOIS BELL TELEPHONE COMPANY

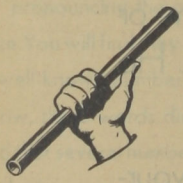
For That Home-To-Be...

PLANNED TELEPHONE SERVICE!

Telephone service . . . like gas, water and electrical facilities . . . should be planned in advance. Telephone wiring can be as modern and inconspicuous as plumbing and electrical work if *provisions for it are made before your home is built.*

Concealed wiring through the use of rigid, flexible or thinwall conduit, enables you to have *built-in telephone outlets* . . . neat little plates which assure preferred telephone instrument locations and which will add much to the living comfort and convenience of your home-to-be.





Conduit placed in walls and floors by the contractor at the time of construction eliminates exposed wiring on baseboards and moldings and reduces the possibility of interruptions to your telephone service. Costs are nominal. Remember, the telephone company provides all needed wires and wiring work—you merely have the conduit installed.

Your telephone company will be glad to consult with you *without cost or obligation* and make recommendations for built-in conduit. Just call our business office and ask for "Architects' and Builders' Service."

ARCHITECTS, CONTRACTORS AND BUILDERS ARE INVITED TO CALL UPON US FOR ASSISTANCE IN PLANNING TELEPHONE FACILITIES.

Excellent bus service is operated to all sections of the city by the Gary Railways Co.

Recreation

The sand dunes of the Calumet Region have long been the source of attraction to naturalists, geologists and pleasure seekers from many points. The Indiana Dunes State Park, which is being improved by the State of Indiana, is located a few miles east of Gary along the shores of Lake Michigan.

The Gary Park System contains fourteen beautiful parks which offer recreation and diversion of all kinds. There is ample provision for golf, tennis, baseball, picnicking, swimming and boating, while numerous playgrounds offer carefully supervised recreation for children. Gary has several fine theatres of beautiful design.

Education

No single institution can offer a greater testimonial to Gary's civic growth than its unique educational system. The Gary Plan is designed to give the boys and girls of Gary a balanced program in work, study and play for as long a school day, week, and year as possible. Eight of Gary's school centers house kindergarten through high school. Two centers provide activities in kindergarten through the eighth grade; and the remaining twelve provide an educational program for kindergarten and primary pupils. The Gary schools emphasize diverse educational opportunities such as recreation, night school and summer school. There are, in addition in Gary, ten well equipped parochial schools.

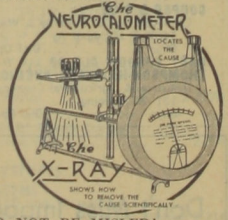
DR. WARREN S. HAMEL, D. C.
SPECIFIC STRAIGHT HOLE-IN-ONE
CHIROPRACTOR
"Nominal Fee For Consultation"

Our aim is to render up-to-the-minute Scientific and Specific Chiropractic Health Service. The Neurocalometer and X-Ray enables us to get the worst cases better in shorter Time. The Neurocalometer shows us where to adjust, and when to adjust, and when not to adjust. We are interested in chronic problem, stubborn, and difficult cases.

The Specific Advanced Hole-in-one Health Service Technique Is No Guesswork



DO NOT BE MISLED!
THREE VITAL QUESTIONS

1st — Where is the *LOCATION?* The Neurocalometer *PROVES.*
2nd — *WHAT* is the *POSITION* of the subluxation? The X-Ray *PROVES.*
3rd — The adjustment corrects position and releases pressure. *HEALTH* is the result. *LOCATION* and *POSITION* — both are vitally essential. The Neurocalometer establishes *LOCATION.* The X-Ray establishes Position. *BOTH* are vitally essential. Neither one does the work of the other.
